ACHIEVEMENTS & CERTIFICATIONS

Section Leader — Code in Place, Stanford University

2026

- One of ~2,000 Section Leaders selected globally out of thousands of applicants to teach Python to beginners through Code in Place, a free course offered by Stanford University to students worldwide.

CS50 Puzzle Day, Harvard University — 2× Winner

- Solved all 9/9 puzzles for two consecutive years, demonstrating strong logic and core CS fundamentals.

Meta Hacker Cup 2025 — Round 1 Qualifier

- Qualified for Round 1 of Meta's global competitive programming contest, showcasing algorithmic problem-solving under pressure.

EXPERIENCE

Stanford University — Code in Place

2026

Section Leader

Remote

- Facilitated weekly live coding sections for a global cohort of beginner programmers, teaching Python fundamentals including functions, loops, conditionals, and problem decomposition.
- Provided 1-on-1 mentorship to students across different time zones, guiding them through assignments and debugging sessions.
- Helped students build programming confidence and complete their final projects, contributing to one of the world's largest free CS education initiatives.

Dev Weekends Fellowship

2025

MERN Stack & DSA Fellow — Bronze Certificate

Remote

- Participated in an intensive fellowship programme covering full-stack MERN development and Data Structures & Algorithms over multiple structured weekends.
- Awarded Bronze Certificate for consistent performance, problem-solving ability, and project delivery throughout the programme.

GirlScript Summer of Code (GSSoC '25)

2026

Selected Open-Source Contributor

Remote

- Selected as a contributor for GSSoC '25, one of the world's largest open-source programmes run by GirlScript Foundation.
- Onboarded to contribute to open-source projects; actively preparing contributions.

iCodeGuru

2025 – Present

Moderator & Trainer

Remote, Pakistan

- iCodeGuru trains Pakistani students for international tech careers and fully funded US scholarship opportunities.
- Moderator: managed community sessions and supported students across the iCodeGuru Slack workspace.
- Trainer: taught DSA, Python, and competitive programming to students preparing for technical interviews and coding contests.

PROJECTS

Lumen — Full-Stack E-Commerce Platform | [GitHub](#) | [Live](#)

- Complete e-commerce platform with product listings, shopping cart, user authentication, and order management.
- Tech: Next.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM, Clerk, Docker.

School Hub — Full-Stack School Management System | [Live](#) | [GitHub](#)

- LMS-style platform with multi-role authentication (admin, teacher, student, parent), dashboards, CRUD, and analytics.
- Tech: Next.js 15, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM, Clerk, Docker, Recharts, Cloudinary.

Real Estate Web App — Full-Stack Property Platform | [GitHub](#)

- Property listing platform with search & filters, user authentication, and property management for buyers and sellers.
- Tech: React, Tailwind CSS, Node.js, Express.js, MongoDB, Redux, JWT Authentication.

IntelliSense AI — AI Brand Visibility Analytics

- AI analytics platform measuring brand visibility across generative AI models; built and presented at the WebMind Innovation Hackathon.
- Tech: Python (FastAPI), Next.js, dashboard visualisations.

LeetCode Agent — Chrome Extension

- Chrome extension recommending daily LeetCode problems, tracking progress, and auto-pushing accepted solutions to GitHub.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, React Hook Form, Zod

Backend: Node.js, Express.js, FastAPI (Python)

Databases: MongoDB, PostgreSQL, Prisma ORM

State & Security: Redux, JWT Authentication, Clerk

Tools: Git, GitHub, VS Code, Docker

Exploring: Generative AI, LLMs, Prompt Engineering, Python for AI

EDUCATION

University of Agriculture, Faisalabad (UAF)

Bachelor of Science in Computer Science

2023 – 2027

Faisalabad, Pakistan

- Relevant Coursework: Data Structures & Algorithms, Web Technologies, Database Systems, OOP.
